Forecast for Friday 27 Dec 2024

Weather: Mainly overcast with low cloud and patchy drizzle. However, some thinning towards the summits with a small chance of a temperature inversion allowing the highest summits to become cloud free at times

Chance of cloud-free hill tops above 800m: 30% highest summits due to the small chance of a temperature inversion.

Low Cloud and visibility: Extensive cloud, base 300m or less, although a small chance the highest summits could become clear. Visibility moderate to very poor, but very good above
